

Interventional Radiologist, based in Cyprus

Private Hospital in Cyprus is currently seeking for a highly skilled, full-time **MD Interventional Radiologist** to join its expanding Xray/Ultrasound/Mammography department, in response to the increasing demand for Interventional Radiology services at the Hospital.

Applicants would be expected to have wide experience in Interventional Radiology including vascular and non-vascular intervention, and the department would be flexible in accommodating any secondary areas of interest. This position will share in the rotation in supporting IR/DR services., offering the opportunity for a significant equity ownership grant upon partnership.

Required Skills/Abilities:

- *Ability to read diagnostic cases including routine mixed emergency studies, CT, MRI, ultrasound, and x-rays.*
- *Excellent patient care skills.*
- *Superior critical thinking skills and the ability to interpret complex data*

Education and Experience:

- *Completion of medical school, a medical internship, and medical residency in radiology at an accredited medical facility required.*
- *Candidates must be subspecialty trained in Interventional Radiology*
- *At least, three years of experience required.*

The Hospital offers a highly competitive salary with comprehensive benefits along with relocation assistance.
